

(a) Is this your first time writing a code? If no, please specify what kind of programming language you learned before.

之前寫過 python(大概完成 codecademy 上的基礎課程)、html(很少)、php(很少)、R(很少)、git(幾乎都用使用者介面)

(b) Are the Python and VPython installation guidelines helpful? If not, please provide some constructive suggestions.

因為之前安裝過了，所以沒什麼看。

(c) Is this handout clear enough? If not, please specify which part confuses you.

很清楚。

(d) Please give some feedbacks to the design of this lab. Positive or negative are both welcomed
