Report:

(a) Please describe the difficulty of this lab.

在第二題進位法轉換時,遇到無法精確取小數的問題(例如:1.1-1.0=0.09999996),導致在轉換小數時會有問題。目前我還想不到除了用字串處理以外的方法。

- (b) How long did you spend on this lab? 大概 8 小時吧
- (c) Anything you want to say to TA so far? (Teaching style, where to improve, to name a few)

沒有呢
